

# Post Road Pediatrics, LLP

We are excited to announce that on June 6, 2017:

Post Road Pediatrics is converting to a new and vastly improved electronic health record system. Some of the benefits are outlined below:

- Smoother scheduling and registration saving time for families
- Provides simplified, easy to understand statements and online bill pay
- Access to MyChart, the new patient portal where you can:
  - Send and receive messages with your care team and practice
  - Get copies of your immunization records, camp and sports forms
  - View and pay your bill online

We are making every effort to ensure that there is minimal impact to you during this transition. We thank you for your patience and we assure you that the inconvenience is temporary.

- The Staff at Post Road Pediatrics
