December 27, 2019

Dear Post Road Pediatrics Patients and Families,

We are writing to let you know about some upcoming changes to the Post Road Pediatrics team. Dr. Jody Hochschartner-Boyd, our team psychologist for the past 5 years, will be retiring on January 2, 2020. Dr. H-B, as many of you have known her, helped to launch our Integrated Behavioral Health Initiative in the fall of 2014 and has been an invaluable resource for both our patients and staff. We wish to thank Dr. H-B for her outstanding service to our patients and families and wish her the best of luck in her retirement!

Starting January 6th, 2020, Michelle Faux, LMHC will be joining our team. Michelle has worked for many years at the Counseling Collaborative in Sudbury. She has years of clinical experience working with children, adolescents, and families, and has great knowledge of local behavioral health resources. She will be available Monday through Friday, giving our patients increased access to behavioral health services in our office. We are very pleased to welcome Michelle to our team and we can't wait for you to meet her.

We plan to make this transition within our Integrated Behavioral Health team as smooth as possible. As always, if you have any questions or concerns, please contact our office. We wish you good health this season and we look forward to continuing to provide the best care to our patients and families.

Sincerely,

Post Road Pediatrics
