Brian DiGiovanni, MD

John Reap, MD
Heather Maroney, MD

Transition to Adult Medicine

The time has come to begin your transition from Post Road Pediatrics to Adult Medicine.

We know that it may take time to get in to see a new physician (sometimes a 6 month to 1 year wait for a new patient physical exam), so we suggest you begin this process now.

Checklist for medical transition

- Select a new physician who accepts your insurance.
 - You can check your insurance's website's "find a doctor" search tool or...
 - Call one of the many private or group practices in our area (a few examples include)
 - Southborough Medical Group – Now part of Reliant Medical Group (508) 460-3170
 - Charles River Medical Associates 508-848-2190
 - Harvard Vanguard 800-249-1767
 - MetroWest Internal Medicine 508-872-0904
- Complete our record transfer form (included)
- Call your insurance to let them know you have a new primary care provider
- Schedule your new patient appointment

Post Road Pediatrics will continue to provide you with urgent care for the next 60 days.

It has been a pleasure participating in your care throughout the years. We wish you all the best and as always, good health!
